31/01/2017

Dear Parents,

One of our main priorities at MacGregor State High School is engaging students in making Maths fun.

As part of this commitment Year 7 students will participate in a Maths Expo on Monday the 13th February. Students will participate in three workshops during the day event.

An outside organisation called World of Maths, will be conducting a hands on workshop providing a range of creative, problem solving activities suitable for your child's level of maths. Focussing on solving 'real-life' problems they will use 'Thinking Mathematical' strategies from the new National syllabus.

The second workshop is provided by Smart Money, an interactive and engaging workshop to equip students with sound financial literacy skills to be confident managers of their money.

During the day students will also participate in a Maths trail and complete the Pat-Maths test.

Students will take part in the workshops with their usual Maths class and be supervised by their Maths Teacher. Formal school uniform is to be worn and school start and finish times will be the same.

Students will need to have their exercise book, iPad and stationery for the whole day.

Kind regards,

Mrs Dhuha Gatei
Numeracy Coordinator
