Assessment Issue – Student Absence for part or whole days when assessments are due.
An issue has arisen recently where students are absenting themselves from school for part or whole days, on days when assessment tasks are due in for submission.

Students who do this are gaining an unfair advantage over their peers who have come to school and submitted the task in lesson time.

From Week 5 of this term the following rule is being followed in our school:

When a student is absent for all or part of the day when an assessment is due, a medical certificate must be provided for the absence.
