Our school initiatives are showing substantial progress toward our targets

After reviewing our 2016 *Investing for Success* agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our initiatives as needed to ensure every student succeeds.

Initiatives implemented include:

- **Accelerating Literacy Learning** project – building the teaching of reading and reading comprehension
- **Support students** in literacy and numeracy studies through Targeted Learning Support classes and in class Teacher Aide support
- Online **numeracy courses** (Mathletics) used in classes (and 24/7 access for students)
- Whole staff induction in **Dimensions of Learning** – shared language across classrooms
- Dimension 2 **Literacy Strategies** e.g. Marzano's 6 steps to better vocabulary, Pat Hipwell's LogonLiteracy Program
- **Data review cycles** – short term and long term measurable goals, professional learning with all teaching and support staff using targeted strategies for effectiveness and impact
- **Tracking of student** that are underperforming – Using the IMPACT Project Booster Programs in Numeracy and Literacy to target these students
- **IRead Program** – Whole Junior Secondary reading program incorporated in CEP activities involving age appropriate novels
